

### What is an Illicit Discharge

Federal regulations define an illicit discharge as "...any discharge to a municipal sewer that is not composed entirely of stormwater..." with some exceptions. These exceptions include discharges from permitted industrial sources and discharges from fire-fighting activities. Illicit discharges are considered "illicit" because municipalities are not designed to accept, process, or discharge such non-stormwater wastes.

### Sources of Illicit Discharges

- Sanitary wastewater
- Effluent from septic tanks
- Car wash wastewaters
- Improper oil disposal
- Radiator flushing disposal
- Laundry wastewaters
- Spills from roadway accidents
- Improper disposal of auto and
- Household toxins

### How to report an Illicit Discharge

Step 1: Observe from a safe distance. DO NOT touch or smell the substance.

Step 2: Notify

Weekdays between 8am-5pm please call Town of Clarkson Stormwater Coordinator at (585)637-1145

In case of emergency call 911

Step 3: Provide information the following information

- your name
- phone number
- discovery/incident time, date, and location
- description of material, source if known
- estimate extent of problem (slow trickle vs significant flow)

The sooner we learn about these incidents, the better our chance of finding the source and correcting the problem!
