

The Town of Clarkson Water Improvement Benefit Area No. 1
August 29, 2025

The Town's engineers, MRB Group, have provided the following update:

- The Contractor has installed all water main within the water benefit area.
- As of August 28th, Monroe Orleans County Line Road water main is active and in service.
- The Contractor is working to install water services and clean up on Redman Road, south of NYS Route 104, West Avenue, and Old West Avenue. Once complete, these water mains will be activated and placed into service, and the Contractor will move to Lawton Road to begin water service installation and clean up there.
- **Property owners within the water district who have signed up with the Monroe County Water Authority to receive water service are asked to mark the desired location of their water service with a wooden post. Please write the house number on the post.**
- Questions: contact Scott Mattison, P.E., MRB Group, 585.340.3661.
